### Latest News

## TURCK

### Turck Chartwell now Turck Canada

Effective October 2, 2017, Turck has acquired the remaining 50 per cent interest in Turck Chartwell Canada of Markham, ON, and thus is 100 per cent owner of the new subsidiary. In January 2018, the company name will become Turck Canada Inc. Mark and Steve Boehmer, the two founders of Chartwell, have signed long-term management contracts. They will continue to lead the company as president and VP sales and marketing.

### Portable particulate monitor

Cameron Instruments has announced the release of a portable particulate monitor from Aeroqual. The PM Sensor head plugs into Aeroqual's existing range of handheld monitors (series 200/300/500) and measures particles 2.5 microns and less and particles 10 microns and less (PM2.5, PM10).

### Feature Articles

### Enhancing your pump reliability

Pumps are an essential part of most fluids handling systems, with system performance depending directly on pump availability and reliability. Carefully thought out inspection and preventative maintenance programs are one of the best ways of ensuring that pumps will operate reliably

and efficiently when they are called upon.
